

## HOUSING INFORMATION

We make every effort to provide safe housing while you are on rotation. Some area housing is in a hotel/motel setting. In instances like this, your housing stipend will not cover the entire expense.

Prior to your arrival, you will need to let the Student Coordinator know the days you wish housing provided so a room can be arranged.

There is a possibility that you will share a room with another student (same gender). When the housing stipend has been spent, the remaining amount for your student(s) housing is the student(s) responsibility.

If AHEC arranges housing for you, any changes or cancellations should be made by AHEC. You should contact the student coordinator if such changes are necessary.

## HOUSE RULES:
